

Final Adjustments.

- Knuckles (A) should be on the hips.
- Front clips (B) high on the shoulders.
- Back straight (C).
- Toes (D) just touching the ground or up in Stirrups.
- Top bar (E) parallel to the ground.
- Leg rings flat and tight like a saddle.
- Optional – Insert set screws for stability.

Set/grub screws are not necessary for operation, but reduce extra play and noise. See section on "Adjusting" for locations.

Proper positioning and adjustment of the front harness

Leg rings and Harness fitting
